

Evidencias de solución a problema 1

Compute Sales

Pylint execution

```
→ ComputeSales git:(main) ✗ pylint compute_sales.py

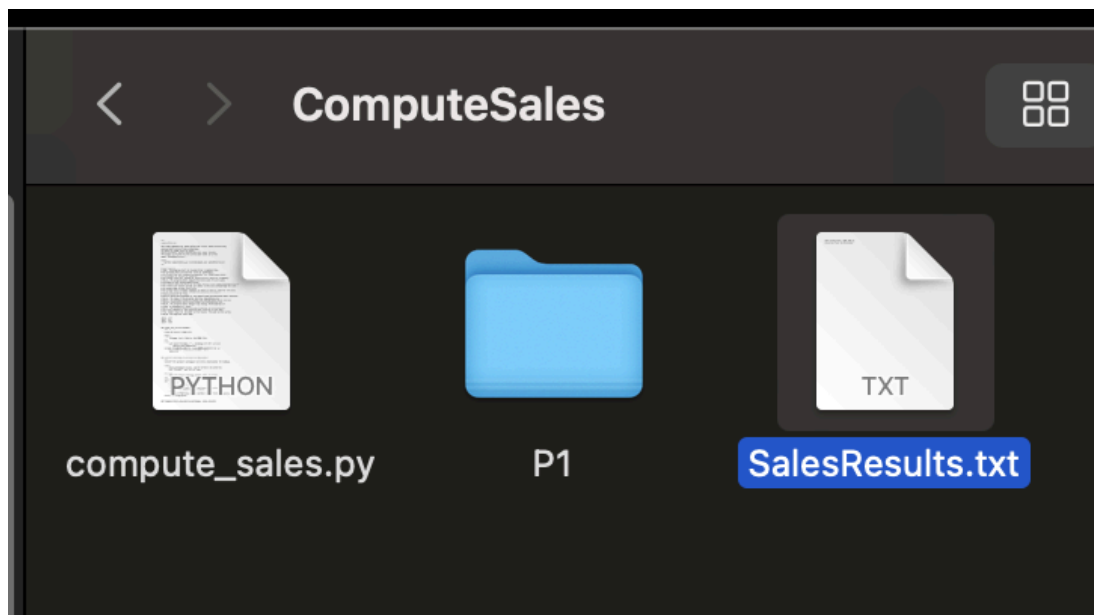

-----
Your code has been rated at 10.00/10 (previous run: 10.00/10, +0.00)
```

Flake8 execution

No errors

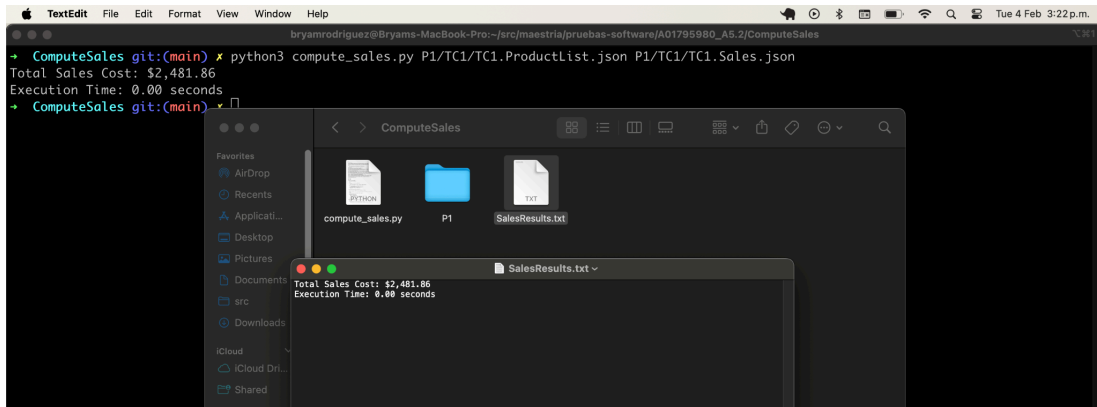

```
ComputeSales git:(main) ✗ flake8 compute_sales.py
ComputeSales git:(main) ✗
```

Resulting file

Test executions

TC1
